A lifetime keepsake of your cherished pet, beloved family member, special friend or other person who has passed away but is forever in your heart.

Memory Pendants

Creating memories that never fade

Used in conjunction with an urn or an ash scattering service these quality handmade unique silver and glass cremation memorials bring memories to an even more personal level by holding a small portion of ashes.

Some of the memorials shown can incorporate a lock of hair, a portion of a birds feather or even a part of a flower petal.

Since 2003 we have offered one of the largest selections of quality handmade fused glass, silver and dichroic glass cremation jewelry, lock of hair or ash keepsakes, worry stones, and hanging memorials along with one of the widest range of color combinations available. Most all of the memorial pendants shown in our memorial pendants gallery include visible or non-visible options, your choice of 3 color combinations from our wide range of color choices and five separate black neck cord selections.

Memory Pendants™

Using centuries old glass fusing techniques developed by the Romans, fairly new art glass called Dichroic glass and fine silver metalsmithing, L. Huffman Studios has created unique, one-of-a-kind keepsake memorials to provide you with a lifetime of memories that never fade. When we first started, our efforts were focused on memorials for pets. As L. Huffman Studios grew, demand for our memorials and the statement of quality they represented resulted in the establishment of Memory Pendants to represent not only cherished pets but also loved family members and special friends.

Internationally acclaimed artist, cartoonist and educator Linda Huffman, artist, owner and founder of L. Huffman Studios, has a long history of creating fine art and a genuine caring devotion each family she has had the honor to serve shows in every memorial that leaves her studio.

These unique memorials are still created one-at-a-time and, like snowflakes, no two are exactly alike. By owning and giving a Memory Pendant from L. Huffman Studios, you are making a statement of elegance and caring thought.

Creating Memories that never fade
